Introduction to Computer Music

PROJECT #1: AUDIO
Project Proposal

Due: Fri., Sept. 17, 11:59 pm

Name: _____

CHECK ONE

_____ - I will create 5 transformed sound effects using Audacity

_____ - I will create 4 sound effects and 1 alternative transformed sound using Audacity

Notes (if any):

OR

Provide a description of your 1-min. audio composition project

With instructor approval, you may create an audio-based composition (ca. 1 min.). For example, you could create a *collage*, *mash up*, *soundscape*, etc. If you choose this option, you must submit a 1-paragraph description of your project (below). If you plan to use software tools other than Audacity to create your project, you must let me know what tools you plan to use. Your composition must have a *title*. Your supporting paper must document your compositional process (artistic and technical) in bullet-point fashion.

Description (typed, at least 1 paragraph):
